**ACKNOWLEDGMENTS**—Many persons participated in the various activities of the 1977 Census of Service Industries. Primary direction of the program was performed by **Shirley Kallek**, Associate Director for Economic Fields, and **Richard B. Quanrud**, Assistant Director for Economic and Agriculture Censuses.

This report was prepared in the Business Division under the general direction of **Tyler R. Sturdevant**, Chief. **Michael G. Farrell**, Assistant Chief for Census Programs (until May 1980), and **Bobby E. Russell**, his successor, were responsible for overall planning and management of the Division's census programs. They also coordinated activities with other divisions.

Planning and implementing the report were under the direction of **Dorothy J. Reynolds**, Chief, Service Census Branch (until July 1980), and **Sidney O. Marcus**, her successor, with primary staff assistance by **Sheldon G. Ziman, Laurie A. Torene, Tom S. Hinman, Jack B. Moody, Leatrice D. Hines**, and **Edward D. Walker. Alvin H. Barten** coordinated activities, specifications, and procedures with the other economic censuses. Computer programs were developed under the general supervision of **Heyward D. Glisson**, Assistant Division Chief for Data Processing (until August 1980). **William C. Wester**, Chief, Census Programming Branch, assisted by **Judith A. McKay, Robert A. Freundlich, Leonard S. Sammarco, Ana C. Arguelles, Janice S. Farquhar, Nilda I. Martinez, Donald T. Badgley**, and **Ann C. Liau**, was primarily responsible for planning and implementing the programs.

Forms design was performed in the Administrative Services Division, **Henry J. Husmann**, Chief (until August 1980). The entire staff of the Forms and Mail Management Branch made significant contributions in the planning, design, review and composition of the forms.

Within the Publications Services Division, many individuals made significant contributions in publication planning and design, editorial review, composition, and printing procurement. These operations were performed under the direction of **Raymond J. Koski**, Chief, assisted by **Milton S. Andersen, Arlene C. Duckett, Gerald A. Mann, Helen M. Curtis, Jacqueline A. Gans, John Overby, Nicholas Preftakes, Rosemary B. Vance**, and **Robert Warunek**.

Clerical and data keying operations were performed in the Data Preparation Division at Jeffersonville, Ind., under the direction of **Don L. Adams**, Chief, assisted by **Robert L. Allen, Rebecca Lamon**, and **George Wilson**. The clerical geocoding effort was directed by **Wendell McManus**.

Systems and procedures for mailout and clerical processing were developed in the Economic Surveys Division by **Roger H. Bugenhagen**, Chief (until February 1980), assisted by **Andrew L. Grieco, Robert E. Crowther**, and **Joel Richardson**. Clerical procedures were developed by **Robert Brand**, assisted by **Haydn R. Mearkle, Helen L. Barton**, and **Beverly M. Eng. Walter E. Neece**, assisted by **C. Harvey Monk**, had staff responsibility for industry classification procedures. Administrative record processing specifications were developed by **Lawrence A. Blum** and **John M. Sullivan** under the direction of **Samuel Schweid**. Electronic computer programs for check-in and administrative records were developed and supervised by **Robert G. Willner** and **Donald H. Danbury** under the direction of **Paul E. Poissant**. Data input procedures were developed by **Leonard M. Tauber** and quality control procedures by **Jean F. Biggs**.

The geographic coding procedures and computer programs were developed in the Geography Division under the direction of **Jacob Silver**, Chief (until August 1980), assisted by **Silla G. Tomasi, Gerald Cranford, Terence D. McDowell, Dan Harding, Phyllis Krause, Walter Yergen**, and **Rose J.A. Quarato**.

Computer processing was directed by **C. Thomas DiNenna**, Chief, Computer Services Division. **John E. Halterman, Jesse J. Verdeja, Willie E. Clark**, and **Norman W. Larsen** provided staff assistance.

**Donald E. Young, Lawrence H. Lyons**, and **Robert S. Taylor**, of the Office of the Assistant Director for Economic and Agriculture Censuses, participated in overall planning and review of the census operations.

Much of the data in this report is a retabulation of data in previously published reports from the 1977 Census of Service Industries. The many individuals who contributed to the planning, implementation, and review of those reports also contributed to this report.

Special acknowledgment is also due the many businesses whose cooperation has contributed to the publication of these data.

# AIDS TO TABLE USE

## ALL ESTABLISHMENTS VERSUS ESTABLISHMENTS WITH PAYROLL

Tables in this report covering *taxable* service industries present data for two major categories of establishments: All establishments and establishments with payroll. Tables covering *tax-exempt* service industries present data only for establishments with payroll (see appendix A for explanation).

The term "all establishments" includes those with no payroll and those with payroll. The number and receipts of establishments with no payroll is determined by subtracting data for establishments with payroll from data for all establishments.

As in the table below:

52 954 (Number of all establishments)
−35 928 (Number of establishments with payroll)
17 026 (Number of establishments with no payroll)

Receipts of the 17 026 establishments is $374 677 (000).

For several kinds of business, data are not shown for all establishments. Instead, a double asterisk (**) appears (see Abbreviations and Symbols). This situation occurs because the data come from two sources, and one source classifies by kind of business in greater detail than the other.

For the establishments with no payroll, the Bureau of the Census obtains on computer tape limited information extracted by the Internal Revenue Service from Federal income tax returns. Classifications for establishments with payroll come from Census Bureau records developed from one of the Bureau's mail canvasses. The establishments with no payroll are coded in less detail than the establishments with payroll. Therefore, the combined data for all establishments (establishments with no payroll plus establishments with payroll) are presented in less kind-of-business detail than are data for establishments with payroll alone.

## DOLLAR VALUES

All dollar values presented in this report are expressed in current dollars, i.e., 1977 data are expressed in 1977 dollars.

## ABBREVIATIONS AND SYMBOLS

The following abbreviations and symbols are used in the publication:

# INTRODUCTION

## HISTORY OF THE ECONOMIC CENSUSES

The economic censuses are comprehensive and periodic canvasses of the Nation's industrial and business activities. Taken by the Census Bureau, a part of the U.S. Department of Commerce, the censuses provide a detailed statistical profile of a large segment of the national economy.

The first economic census of the United States was conducted as part of the 1810 decennial census, when inquiries on manufacturing were included with the census of population. All other decennial censuses through 1900, except that in 1830, contained questions on manufacturing. In 1904 the quinquennial census of manufacturing began. It was conducted every fifth year until 1920 and every second year from 1921 to 1939. Although some distributive trade data were collected in the decennial census of 1840, the first census of business was taken in 1929. It covered only retail and wholesale trades, but beginning with the second business census in 1933 and in succeeding censuses various services also have been included. Business censuses were subsequently taken for 1935 and 1939 and after a wartime interruption were resumed in 1948. Beginning in 1954, and continuing in the censuses of 1958, 1963, 1967, and 1972, the business censuses have been conducted concurrently with the censuses of manufactures and mineral industries. Beginning with the 1967 censuses, Congress authorized the economic censuses to be taken at 5-year intervals covering years ending in "2" and "7".

## USES OF THE ECONOMIC CENSUSES

The economic censuses are the primary source of facts about the structure and functioning of the economy and, therefore, provide information essential for both government and business. The censuses furnish an important part of the framework for such composite measures as the national accounts. In forecasting and planning, they are especially useful in analyzing the national product in terms of the transactions that determine its size and composition. The economic censuses also provide weights and benchmarks for indexes of industrial production, productivity, and price, all of which are essential for understanding current economic developments.

Manufacturers and distributors make widespread use of the economic censuses in establishing measures of their potential markets by areas, kinds of businesses, and kinds of products. Management in various industries and trades get facts from them for use in economic or sales forecasting, analyzing sales performance, laying out sales territories, allocating advertising budgets, and locating plants, warehouses, and stores. Trade organizations use census statistics for insight into changes in the structure of industry. State and local governments use the geographic detail that decribes the patterns of economic change in individual communities. Local business organizations and research groups do too.

Following every census, reports are purchased by thousands of businesses and other users; likewise, census facts are widely disseminated by trade associations, business journals, and the daily press. Volumes containing census statistics are available in most major public and college libraries.

## AUTHORITY AND SCOPE OF THE ECONOMIC CENSUSES

The economic censuses are required by law under title 13 of the United States Code, sections 131, 191, and 224, which direct that they be taken at 5-year intervals. The 1977 Economic Censuses covered manufacturing, mining and quarrying, construction industries, retail trade, wholesale trade, service industries, and selected transportation activities. The next economic censuses are scheduled to be taken in 1983 covering the year 1982.

## CENSUS OF SERVICE INDUSTRIES

The 1977 Census of Service Industries, part of the 1977 Economic Censuses, covered services as defined in the Standard Industrial Classification (SIC) Manual,[1] except Religious Organizations (SIC 866), Private Households (SIC 881), and governmental organizations classified in the covered industries.

The scope of the census also included SIC 4722, Arrangement of Passenger Transportation, a component of SIC Major Group 47, Transportation Services.

To simplify data presentations and comparisons of those service industries covered in previous censuses, this series of reports comprises two segments:

**Selected Service Industries** (Parts 1, 2, and 3 of this volume)—Data are presented for establishments subject to Federal income tax in the following classifications:

| SIC code | Title |
|---|---|
| 701, 3 | Hotels, motels, trailering parks, and camps |
| 72 | Personal services |
| 73 | Business services |
| 75 | Automotive repair, services, and garages |
| 76 | Miscellaneous repair services |
| 78, 79 | Amusement and recreation services, including motion pictures |
| 8072 | Dental laboratories |
| 81 | Legal services |
| 891 | Engineering, architectural, and surveying services |

[1] **Standard Industrial Classification Manual: 1972.** For sale by Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Stock No. 4101-0066. Price $6.75. **1977 Supplement.** Stock No. 003-005-00176-0. Price 90 cents.

**Other Service Industries** (Part 4 of this volume)—Data are presented for nongovernmental establishments and organizations in the following classifications:

| SIC code | Title |
|---|---|
| 4722 | Arrangement of passenger transportation[1] |
| 702, 4 | Rooming and boarding houses and membership lodging |
| 80 ex. 8072 | Health services, except dental laboratories |
| 82 | Educational services |
| 83 | Social services |
| 84 | Museums, art galleries, and botanical and zoological gardens (noncommercial) |
| 86 ex. 866 | Membership organizations, except religious organizations |
| 89 ex. 891 | Miscellaneous services, except engineering, architectural, and surveying services |

Data are also presented for establishments engaged in activities described in Selected Service Industries above which are exempt from payment of Federal income tax under provisions of section 501 of the Internal Revenue Code.

The nature of many of the activities included in this report is not commercial in the sense of a "for-profit" or proprietary business enterprise, and the terms used to describe commercial businesses often are not descriptive of such noncommercial services. However, in the aggregate measurement of the production and delivery of goods and services in the economy, an attempt is made to maintain as much conformity of measures as practicable. Therefore, while some of the data measures, concepts, or terms such as "business," "establishment," and "firm," are not usually associated with many of the noncommercial activities, it must be recognized that they are referencing an economic unit such as a physical location or legal entity involved in the production or distribution of goods or rendering of services.

The basic tabulations in this report do not include data for central administrative offices (CAO's), captive warehouses, and other units which primarily service or are auxiliary to establishments within the same organizations. Data for CAO's and auxiliaries will be found in a subsequent report issued as part of the subject series of the 1977 Enterprise Statistics survey.

For the 1977 Census of Service Industries, large- and medium-size firms, plus all firms known to operate more than one establishment, were sent questionnaires to be completed and returned to the Bureau by mail. For most very small firms, including those with no paid employees, data from existing records of the Internal Revenue Service (IRS) and the Social Security Administration (SSA) were used in lieu of direct collection by the Bureau. Thus, by this combination of sources, basic information on location, kind of business or operation, volume of receipts or expenses, payrolls, and number of employees were obtained for all firms and organizations covered in this report. In addition, more detailed information for selected kinds of business was obtained on the various questionnaires. Tax-exempt services with no paid employees were not included in the 1977 censuses.

Appendix A gives a more detailed explanation of census coverage and methodology for the service industries covered in this report.

## CENSUS DISCLOSURE RULES

In accordance with Federal law governing census reports, no data are published that would disclose the operations of an individual establishment or business. However, the number of establishments in a kind of business classification is not considered a disclosure, so this information may be shown even though other information is withheld.

## GEOGRAPHIC AREAS COVERED

**This volume presents data by kind of business for the following areas:**

1. The United States as a whole.
2. Each State.
3. Each standard consolidated statistical area (SCSA), defined as of December 31, 1977, meeting the criteria outlined in the 1975 Standard Metropolitan Statistical Areas Manual.[2] An SCSA is an area used to facilitate the presentation and analysis of data for concentrations of metropolitan populations. It includes two or more contiguous standard metropolitan statistical areas which meet specific criteria of size, urban character, integration, and contiguity of urbanized areas. Data for SCSA's which cross State lines within a region appear only with the State in which the SCSA is primarily located. Data for SCSA's which cross regions appear with the primary State in each region.
4. Each standard metropolitan statistical area (SMSA), defined as of December 31, 1977, meeting the criteria outlined in the 1975 Standard Metropolitan Statistical Areas Manual.[2] An SMSA is an integrated economic and social unit with a large population nucleus. Each SMSA consists of one or more counties meeting standards of population and metropolitan character, except in New England where towns and cities rather than counties are the basic geographic units. Data for SMSA's which cross State lines within a region appear only with the State in which the SMSA is primarily located. Data for SMSA's which cross regions appear with the primary State in each region.

## MICROFICHE AND COMPUTER TAPES

**The data in this volume are also available on microfiche, prints from microfiche, and computer tapes.**

Microfiche reports and computer tapes are sold by the Customer Services Branch, Data User Services Division, Bureau of the Census, Washington, D.C. 20233.

[1] Covered in economic censuses since 1967, but not previously included in total for selected services in Area reports.

[2] **Standard Metropolitan Statistical Areas, Revised Edition 1975.** For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Stock No. 041-001-00101-8. Price $2.30.

## SPECIAL TABULATIONS

Special tabulations of data collected in the 1977 Census of Service Industries may be obtained on computer tape or in tabular form. The data will be in summary form and subject to the same rules prohibiting disclosure of confidential information (including name, address, kind of business, or other data for individual business establishments or companies) as are the regular publications.

Special tabulations are prepared on a cost basis. A request for a cost estimate, as well as exact specifications on the type and format of the data to be provided, should be directed to the Chief, Business Division, Bureau of the Census, Washington, D.C. 20233.

To discuss a special tabulation before submitting specifications, call 301-763-5282.

# RHODE ISLAND

NOTE: The boundaries of the counties bordering Narragansett Bay (except Providence County) follow the shoreline; jurisdiction over the water area belongs to the State and not to the counties (with the exception of Providence County). For clarity in graphic presentation of county jurisdiction of the islands in Narragansett Bay, the boundaries of all counties have been extended into the waters of the Bay.

# APPENDIX A. General Explanation

## CENSUS COVERAGE AND METHODOLOGY

**Structure and method of enumeration**—Firms covered in the Other Service Industries segment[1] of the 1977 Census of Service Industries were divided into the nonmail universe and the mail universe. The coverage and the method of obtaining census information from each follow:

1. The nonmail universe consists of firms which were not required to file a regular census return and includes:

   a. All taxable nonemployers, i.e., all firms which were subject to Federal income tax and had no paid employees during 1977. Receipts information for them was obtained from 1977 Federal income tax records. Although consisting of a large number of firms, the nonemployer category accounts for less than 11 percent of total receipts of all taxable establishments covered in this segment of the census.

   The census included only those taxable service nonemployer firms which reported a receipts volume of $1,000 or more during 1977, plus firms in operation for less than the full year with reported receipts which, if projected to an annual basis, would have reached a total of $1,000 or more. Tax-exempt establishments with no paid employees were excluded, as in previous censuses.

   Tax-exempt organizations with gross receipts exceeding a stated minimum are required to file an informational return, form 990, with the Internal Revenue Service. Data collected from tax-exempt firms are not, however, currently published as part of the Internal Revenue Service's "Statistics of Income" reports series.

   b. Selected "small employers," i.e., single-establishment firms with payroll below a specified cutoff. (The term "employers" refers to firms with paid employees as shown in the active records of the Internal Revenue Service (IRS), whether or not they were subject to payment of Federal Insurance Contributions Act (FICA) taxes.) Cutoffs were applied only to establishments classified in accounting, auditing, and bookkeeping services, and several of the health professions. Although the cutoff varied by profession, this category generally included firms with one to three employees and represented somewhat more than 10 percent of total receipts of establishments in these professions.

   Data on receipts, payroll, and employment for "under cutoff" employer firms were obtained from records of the IRS and the Social Security Administration (SSA); however, the need for specialized data for small employers in these classifications precluded reliance solely on administrative records sources. Consequently, a 10-percent sample was included in the mail universe.

2. The mail universe consists of firms for which information was obtained basically by means of mail canvass and includes:

   a. All employer firms above the cutoff referred to in I.b. above for the selected health and accounting classifications;

   b. A 10-percent sample of employer cases below the cutoff for the selected health and accounting classifications;

   c. All employer firms, regardless of size, in other covered classifications.

   An annual Organization Survey is conducted in order to identify firms which operate establishments at more than one location and to obtain information on payroll and mid-March employment at each location. The 1976 Annual Organization Survey was used as a coverage check in the census. Firms were required to update the list of establishments opened since 1976 through use of a form included in the mail package received.

**Method of classifying kinds of business**—The service industries classifications for all establishments were based on the Standard Industrial Classification (SIC) Manual.[2] However, the method of assigning these classifications and the level of detail at which establishments were classified differed between the nonmail and mail universes as follows:

1. The nonmail universe:

   a. All nonemployer firms were classified on the basis of information supplied on the Federal income tax returns. They were coded in less detail than employer firms; therefore, the combined data for all establishments (nonemployer firms plus establishments of employer firms) are presented in less kind-of-business detail than are the data for employer establishments alone.

   b. Selected small employers were classified on the basis of the most current census kind-of-business classification available from one of the Bureau's current surveys or the SSA classification. If the SSA classification was not available or was inadequate for coding, the IRS classification based on the firm's description of its principal business activity as entered on its IRS business tax return was used.

2. Establishments in the mail universe were classified on the basis of answers to special inquiries on the census questionnaire.

**Scope**—As explained in the Introduction, data presented in this report include all service industries covered for the first time in 1977, as well as arrangement of passenger transportation and establishments in previously covered industries which are exempt from payment of Federal income tax under the provisions of Section 501 of the IRS code. In 1972, published data included any employer establishments within the covered selected service industries which were subject to payment of Federal Insurance Contributions Act (FICA) taxes, regardless of Federal income tax status. Because of the major expansion in the scope of the 1977 census to include industries which fall largely in the not-for-profit (tax-exempt) sector of the economy, the distinction between taxable and tax-exempt establishments was made for all service industries covered in 1977.

Government-operated or controlled establishments are excluded from this census since such activities are covered in the Census of Governments. Although in the Census of Governments each governmental unit is treated as a single legal entity, data are published by broad functional groupings such as health, education, and social services.

Establishments owned by a governmental entity but operated by a private organization are included in this census. Establishments funded by government but whose operations are not under the control of a government entity (or a board of directors appointed by such an entity or publicly elected) are also included.

**Legal form of organization**—In 1977, the legal form of organization was determined for establishments in the mail universe on the basis of the response to the legal form of organization inquiry on the census forms. The legal form of organization of nonmail establishments was generally based on the type of IRS business income tax return form filed.

The Subject series of reports will present data in selected classifications of service activities, by the following legal forms of organization, for taxable establishments only:

1. Individual proprietorships.
2. Partnerships.
3. Corporations (including non-tax-exempt cooperatives).
4. Other.

## EXPLANATION OF TERMS

**Establishments**—An establishment is a single physical location at which business is conducted. It is not necessarily identical with a company or enterprise, which may consist of one or more establishments. Statistics for selected service industries represent a summary of reports for individual establishments rather than companies. For cases where a census report was received, separate information was obtained for each location where business was conducted. When administrative records were used instead of a census report, no information was available on the number of locations operated. Each census report was tabulated in accordance with the physical location at which the business was conducted. The count of establishments in this publication represents the number in business at the end of the year.

When two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment, and the entire establishment was classified on the basis of its major activity and all data for it were included in that classification. However, when distinct and separate economic activities (for which different industry classification codes were appropriate) were conducted under the same ownership at a single location, and when conditions prescribed by the SIC manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were obtained in the census.

Data collected for large institutions (e.g., universities and hospitals) may not be on a consistent basis within the industry because of the way individual institutions are organized. Ancillary activities (such as bookstores, dormitories, laboratories, clinics, cafeterias) are not always identified as separate entities and may be included with the larger organization as one entity, or set up as separate operations and tabulated as such.

Leased service departments (separately owned businesses operated as departments or concessions of another service establishment or of a retail business under another ownership, such as a separately owned shoe shine parlor in a barber shop or a beauty salon in a department store) are treated as separate service establishments for census purposes. Leased retail departments located in service establishments (e.g., a gift shop located in a hotel) are considered separate retail establishments.

**Receipts (Basic dollar volume measure for taxable establishments)**—Includes receipts from customers or clients for services rendered and merchandise sold during 1977 whether or not payment was received in 1977, except for health practitioners, who reported on a cash basis (payments received regardless of when services were rendered), and educational institutions, which were instructed to report for the fiscal year ending in 1977. Total receipts do not include local and State sales taxes or Federal excise taxes collected by the establishment directly from customers and paid directly by the establishment to a local, State, or Federal tax agency; nor do they include nonoperating income from such sources as investments, rental of real estate, etc. Receipts in this report do not include service receipts of manufacturers, wholesalers, retail establishments, or other businesses whose primary activity is other than service. They do, however, include receipts other than from services rendered (e.g., sales of merchandise to individuals or other businesses) by establishments primarily engaged in performing services covered in this segment of the census.

Rents and receipts of separately operated departments, concessions, etc. (e.g., a hospital gift shop, or a commercially operated university dormitory) are excluded. These operations would be classified according to their major activity and separately tabulated.

Although the count of establishments in this report represents the number in business at the end of the year, the receipts figures include receipts of all establishments in business at any time during the year.

**Expenses (Basic dollar volume measure for tax-exempt organizations)**—Expenses include payroll, employee benefits, interest and rent, taxes, cost of supplies used for operation, depreciation expense, fees paid for fund raising, and other expenses allocated to operations during 1977. (Educational institutions were instructed to report for the fiscal year ending in 1977.)

Expenses in this report exclude outlays for purchase of real estate, construction and all other capital improvements, funds invested, assessments or dues paid to the parent or other chapters of the same organization, and funds transferred by fund-raising organizations to charities and other organizations.

**Payroll entire year**—Payroll includes all forms of compensation, such as salaries, wages, commissions, bonuses, vacation allowances, sick leave pay, and the value of payments in kind (e.g., free meals and lodgings) paid during the year to all employees. Tips and gratuities received by employees from patrons and reported to employers are included. For corporations, it includes amounts paid to officers and executives; for unincorporated businesses, it does not include profit or other compensation of proprietors or partners. Payroll is reported before deductions for social security, income tax, insurance, union dues, etc. This definition of payroll is the same as that used by the Internal Revenue Service for purposes of reporting on form 941.

**Payroll first quarter**—This item consists of payroll, as defined above, paid to persons employed at any time during the quarter January to March 1977.

**Paid employees for week including March 12**—Paid employees consist of the full-time and part-time employees, including salaried officers and executives of corporations, who were on the payroll in the pay period including March 12, 1977. Included are employees on paid sick leave, paid holidays, and paid vacations; not included are proprietors and partners of unincorporated businesses. The definition of paid employees is the same as used in reporting on IRS form 941.

**Central administrative offices and auxiliaries**—Each company included in this census was asked to identify and report separately as "central administrative offices" or "auxiliaries" those locations whose primary functions were to manage, administer, service, or support the activities of the other establishments of the company. Data for such central administrative offices and auxiliaries which primarily support the establishments covered in this report will be presented in a subsequent report issued as part of the 1977 Enterprise Statistics series of reports.

## KIND-OF-BUSINESS CLASSIFICATIONS

Services, as defined in the 1972 SIC manual, includes establishments primarily engaged in rendering a wide variety of services to individuals and business establishments.

Establishments covered by the census were assigned kind-of-business classifications in accordance with the industry classifications defined in the 1972 SIC Manual. When a more detailed classification was needed than that defined in the SIC manual, more kinds of business were identified within an SIC.

The basis for a kind-of-business classification is described above in Method of Classifying Kinds of Business. Descriptions for those kinds of business for which data are provided in this report follow.

### Arrangement of Passenger Transportation (SIC 4722)

Arrangement of passenger transportation has been included in the census of service industries since 1967; however, it has always been published separately from selected services. In 1977 this industry is being included with newly in-scope services. It includes the following subgroups shown separately in some tables of this report:

1. Travel agencies—Establishments primarily engaged in furnishing travel information and acting as agents in arranging tours (retailing), transportation, and lodging for travelers. Tour operators which sell their own tours at retail only are included. Establishments providing passenger travel services but reporting no travel conference appointments are classified as "Other services in arranging passenger transportation." Sightseeing buses are classified in SIC 4119, "Local passenger transportation, n.e.c." Sightseeing boats and planes are not included in the censuses.

2. Tour operators—Establishments primarily engaged in arranging and assembling tours (wholesaling), usually for sale through travel agents. Tourist guides are classified in SIC 7999,"Amusement and recreation services, n.e.c."

3. Other services in arranging passenger transportation—Establishments primarily engaged in arranging passenger transportation (other than travel agencies with appointments to travel conferences and tour operators) such as ticket offices (not operated by transportation companies) for railroads, buses, ships, and airlines.

   Traffic consultants are classified in SIC 7392, "Management, consulting, and public relations services." Arrangement of transportation of freight cargo is not included in the censuses.

### Rooming and Boarding Houses, Camps, and Membership Lodging (SIC Major Group 70, except 701 and 7033)

Major group 70 (Hotels, rooming houses, sporting and recreational camps, and other lodging places) includes establishments engaged in furnishing lodging, or lodging and meals, camping space, and camping facilities. In this report, taxable rooming and boarding houses, tax-exempt sporting and recreational camps, and organization hotels and lodging houses operated on a membership basis are tabulated separately. All other types of lodging operated on a tax-exempt basis are included with "All other industries." Hotels, motels, camps, and trailering parks

operated on a taxable basis are included in Parts 1, 2, and 3 of this volume.

**Rooming and boarding houses (SIC 702)**—Establishments renting rooms, with or without board, on a fee basis to permanent or transient guests. Homes for the aged, for children, and for the handicapped that provide additional services, other than nursing care, are classified in "Residential care" (SIC 836) and homes that provide nursing care in "Nursing and personal care facilities" (SIC 805). Houses run by membership organizations are classified in "Organization hotels and lodging houses, on membership basis" (SIC 704).

**Sporting and recreational camps (SIC 7032)**—Sporting and recreational camps providing lodging and meals or lodging only. These include children's camps, fishing camps, hunting camps, and dude ranches. Only tax-exempt establishments are included in this report. Establishments whose receipts are subject to Federal income tax are included in Parts 1, 2, and 3 of this volume.

**Organization hotels and lodging houses, on membership basis (SIC 704)**—Lodging houses and hotels operated by membership organizations for the benefit of their members and guests, and not open to the general public. Commercial hotels operated by such organizations are classified in "Hotels, motor hotels, and motels" (group 701). Resident homes for the aged and others in need of residential, social, and personal care are classified in "Residential care" (SIC 836).

## Miscellaneous Business Services (SIC's 7391 and 7397)

While all classifications of business services in SIC Major Group 73 have been included in previous censuses, establishments which are exempt from payment of Federal income tax are included in this report. Tax-exempt activity among the following industries is of sufficient magnitude to tabulate it separately on tax-exempt tables:

**Commercial research and development laboratories (SIC 7391)**—Establishments primarily engaged in laboratory or other physical research and development activities on a fee or contract basis. Research and development laboratories which perform supporting services for other establishments of the same company are classified as auxiliary to the establishments serviced and are not included here (e.g., research and development laboratories of companies which manufacture the products developed from their research activities are classified as auxiliary to the manufacturing establishments serviced). Also excluded from this classification are establishments engaged in speculative research and development with the intent to manufacture the products of the research or to license others for the use of the patents or processes developed. Nonprofit research agencies funded primarily by investments, grants, or contributions are classified in "Noncommercial educational, scientific, and research organizations" (SIC 892).

**Commercial testing laboratories (SIC 7397)**—Establishments primarily engaged in product testing on a fee or contract basis. Testing laboratories which perform supporting services for other establishments of the same company are classified as auxiliary to the establishments serviced and are not included here (e.g., testing laboratories engaged in testing the products manufactured by their own companies are classified as auxiliary to manufacturing). Noncommercial testing laboratories, previously excluded from the census, are included in this category for 1977.

Other business service establishments which are tax-exempt are included with "All other industries." Establishments subject to payment of Federal income tax are included in Parts 1, 2, and 3 of this volume.

## Selected Amusement and Recreation Services (SIC's 792, 7997, and 7999 Part)

While all classifications of amusement and recreation services in SIC major group 79 have been included in previous censuses, establishments which are exempt from payment of Federal income tax are included in this report. Tax-exempt activity among the following industries is of sufficient magnitude to tabulate it separately on tax-exempt tables:

**Theatrical producers (except motion pictures), bands, orchestras, and entertainers (SIC 792)**—This classification includes the subgroups indicated below, although data are only shown in this report at the 4-digit level (SIC's 7922 and 7929):

1. Dance groups and artists (SIC 7929 Part)—Companies, groups, and artists primarily engaged in the presentation of ballet; modern, folk, or ethnic dance; and similar dance presentations.
2. Symphony orchestras, opera companies, and chamber music organizations (SIC 7929 Part)—Symphony orchestras, opera companies, and chamber music organizations (including chamber orchestras) organized for the presentation of their musical specialty.
3. Other music and entertainment presentations (SIC 7929 Part)—Dance and stage bands, orchestras (except symphony or chamber), combos, quintets, soloists, and similar musical organizations, groups, and artists, as well as other entertainers, operating on a contract or fee basis for restaurants, night clubs, radio and television, etc. Burlesque and vaudeville shows are included here; also included are promoters of a variety of entertainment.
4. Producers of legitimate theater (SIC 7922 Part)—Establishments primarily engaged in presenting live theatrical productions in legitimate theaters. Theaters which are normally rented to theatrical producers are classified as real estate operations and excluded from this census.
5. Producers of radio and television shows, except tape (SIC 7922 Part)—Establishments primarily engaged in producing shows for presentation on radio, TV, in night clubs, etc.
6. Artists' and entertainers' managers or agents, concert

bureaus, and booking agents (SIC 7922 Part)—Establishments primarily engaged in representing performers and producers for a fee or commission.

7. Other theatrical services (SIC 7922 Part)—Businesses engaged in theatrical services, not elsewhere classified, such as ticket agencies; theatrical, television, and radio employment agencies; theatrical equipment rental and design; lighting; etc.

**Membership sports and recreation clubs (SIC 7997)**—Sports and recreation clubs which are restricted to use by members and their guests. Country, golf, tennis, yacht, and swimming clubs are included in this industry. Such establishments are classified here regardless of the proportion of receipts derived from food or liquor sales. Health clubs are included in "Miscellaneous personal services" (SIC 729). Membership organizations engaged in civic, social, or fraternal activities are classified in "Civic, social, and fraternal associations" (SIC 864).

**Museums and botanical and zoological gardens (commercial) (SIC 7999 Part)**—Museums, art exhibitors, and botanical and zoological gardens which are supported primarily by admission charges. Commercial art galleries or art dealers primarily selling to the general public are classified in retail trade, "Miscellaneous retail stores, n.e.c." (SIC 5999). Museums, art galleries, and botanical and zoological gardens supported primarily by contributions, grants, etc., are classified in SIC major group 84.

Other amusement and recreation service establishments which are tax-exempt are included with "All other industries." Establishments subject to payment of Federal income tax are included in Parts 1, 2, and 3 of this volume.

## Health Services, Except Dental Laboratories (SIC Major Group 80, except 8072)

This major group includes establishments primarily engaged in furnishing medical, surgical, and other health services to persons. Associations or groups primarily engaged in providing medical or other health services to members are included, but those which limit their services to the provision of insurance covering hospitalization or medical costs are classified in Insurance (major group 63). Also included in this major group are associations of health practitioners formed solely for the sharing of expenses (including payroll), and not for the purpose of jointly practicing their profession. Dental laboratories (SIC 8072) are included in Parts 1, 2, and 3 of this volume. Health care facilities were primarily coded based on self-designation. Where multiple levels of care were indicated, but were not apparently separate operations, the facility was generally classified based on the highest level of care provided.

Veterinarians are classified in "Veterinary services" (SIC group 074) and are out of scope.

**Offices of physicians (SIC 801)**—Establishments of licensed practitioners having the degree of M.D. or equivalent and engaged in the practice of general or specialized medicine and surgery. Establishments such as group clinics, in which a group of physicians is associated for the purpose of carrying on their profession, are included here. Clinics not owned by physicians are classified in "Outpatient care facilities" (SIC 808). Osteopathic physicians are classified in SIC 803.

Associations of physicians formed solely for the sharing of expenses (including payroll) and facilities, and not for the purpose of jointly carrying on their profession, are also included here. "Receipts" are not applicable for these associations since their operations are covered by reimbursements from member firms which are not considered operating receipts for medical services provided; neither are such entities tabulated as separate operating establishments. However, their payroll and employment data are included in statistics presented for this category.

For large geographic areas, data are shown separately for the following subgroups:

1. Offices of physicians.
2. Associations of physicians for expense sharing.

**Offices of dentists (SIC 802)**—Establishments of licensed practitioners having the degree of D.D.S. (or D.D.Sc.) or D.M.D. and engaged in the practice of general or specialized dentistry, including dental surgery. Associations of dentists formed for the sharing of expenses are also included (See SIC 801 for treatment of such associations).

**Offices of osteopathic physicians (SIC 803)**—Establishments of licensed practitioners having the degree D.O. and engaged in the practice of general or specialized osteopathic medicine.

**Offices of chiropractors (SIC 8041)**—Establishments of licensed practitioners engaged in the practice of chiropraxis.

**Offices of optometrists (SIC 8042)**—Establishments of licensed practitioners engaged in the practice of optometry. Establishments where receipts are primarily from the sale of optical goods prescribed as a result of eye examinations performed at another establishment are classified in "Miscellaneous retail stores, n.e.c." (SIC 5999).

**Offices of health practitioners, not elsewhere classified (SIC 8049)**—Establishments of licensed health practitioners engaged in practice in health fields, not elsewhere classified, such as acupuncturists, chiropodists, Christian Science practitioners, midwives, nutritionists, occupational therapists, and psychologists.

**Skilled nursing care facilities (SIC 8051)**—Establishments primarily engaged in providing care and treatment for patients who require continuous health care with inpatient beds, but not hospital services. These establishments must have an organized medical staff, including physician services, and continuous nursing services. Included here are extended care facilities as well as other types of continuous nursing care facilities.

**Nursing and personal care facilities, not elsewhere classified (SIC 8059)**—Establishments primarily engaged in providing some nursing and health-related personal care with inpatient beds, but

not continuous nursing services. These establishments have at least one shift with a licensed or registered nurse to provide routine health care and observation. Included are rest homes, convalescent homes, and other institutions where health care is a major element. Residential facilities such as homes for the retarded and aged, which provide personal care, but where health care is incidental, are classified in "Residential care" (SIC 836).

**General medical and surgical hospitals (SIC 8062)**—Establishments primarily engaged in providing general medical and surgical services and other hospital services, as well as continuous nursing services. These establishments have an organized medical staff, inpatient beds, and equipment and facilities to provide complete health care.

**Psychiatric hospitals (SIC 8063)**—Establishments primarily engaged in providing diagnostic medical services and inpatient treatment as well as continuous nursing services for the mentally ill. These establishments have an organized medical staff, inpatient beds, and equipment and facilities to provide complete health care.

**Specialty hospitals, except psychiatric (SIC 8069)**—Establishments primarily engaged in providing diagnostic services, treatment, and other hospital services as well as continuous nursing service for particular kinds of patients or patients with specified types of illnesses, except mental. Such hospitals include children's, maternity, geriatric, orthopedic, and tuberculosis. These establishments have an organized medical staff, inpatient beds, and equipment and facilities to provide complete health care. Psychiatric hospitals are classified in SIC 8063.

**Medical laboratories (SIC 8071)**—Establishments primarily engaged in providing professional analytic or diagnostic services to the medical profession or to the patient as prescribed by a physician. Laboratories engaged in the manufacture of medical or pharmaceutical products are included in the census of manufactures. Laboratories engaged in medical research are classified in "Commercial research and development laboratories" (SIC 7391) or "Noncommercial educational, scientific, and research organizations" (SIC 892).

**Dental laboratories (SIC 8072)** are included with previously covered service industries in Parts 1, 2, and 3 of this volume.

**Outpatient care facilities (SIC 808)**—Establishments primarily engaged in outpatient care with permanent facilities and with medical services to provide diagnosis, treatment, or both for patients who are ambulatory and do not require inpatient care. Associations or groups formed primarily to provide medical or other health services to their members, and which themselves provide these services, are included. Health care programs which contract out the provision of services are classified in "Accident and health insurance" (SIC 6321) and are out of scope of the census. Included in this industry are alcoholism treatment clinics, family planning clinics, health maintenance organizations (HMO's), kidney treatment centers, medical clinics (not owned by licensed health practitioners), physical therapy clinics, and rehabilitation centers (medical treatment).

**Health and allied services, not elsewhere classified (SIC 809)**—Establishments primarily engaged in rendering health and allied services, n.e.c., such as blood banks, blood donor stations, childbirth preparation classes, medical photography and art, oxygen tent services, and visiting nurse associations. Establishments of registered or practical nurses in independent practice are classified in "Offices of health practitioners, n.e.c." (SIC 8049). Ambulance services are classified in "Local passenger transportation, n.e.c." (SIC 4119) and are out of scope. Hospital service organizations providing a variety of administrative and support services to a group of independent hospitals are included in "Business services, n.e.c." (SIC 7399).

## Legal Services (SIC Major Group 81)

This major group includes establishments engaged in offering legal advice or legal services, the head or heads of which are members of the bar. Only tax-exempt, nonprofit legal aid services are included in this report. For simplicity of presentation, and since the large majority of nonprofit legal aid services are tax-exempt, all such organizations have been defined as "tax-exempt." Practices which are operated on a for-profit basis are included in Parts 1, 2, and 3 of this volume.

## Educational Services (SIC Major Group 82)

This major group includes establishments furnishing formal academic or technical courses, correspondence schools, commercial and trade schools, and libraries. Schools for the instruction of beauty parlor operators are classified in SIC group 723; barber colleges in SIC group 724. Only nongovernment operated schools are included in the census.

**Elementary and secondary schools (SIC 821)**—Elementary and secondary schools below university grade (ordinarily grades 1 through 12), including boarding schools, schools for the handicapped, and vocational high schools. Kindergartens and military academies are also included here. Religious-affiliated elementary and secondary schools (owned or controlled by a church or similar religious organization, or controlled by a board of directors appointed by such an organization) are not included in 1977.

**Colleges, universities, and professional schools (SIC 8221)**—Colleges, universities, and professional schools granting academic degrees and requiring for admission at least a high school diploma or equivalent general academic training. Theological seminaries and other religion schools not offering academic degrees are classified in "Religious organizations" (SIC 8661) and are out of scope of the censuses.

**Junior colleges and technical institutes (SIC 8222)**—Junior colleges and technical institutes requiring for admission at least a high school diploma or equivalent general academic training, and granting associate academic degrees, certificates, or diplomas.

**Libraries and information centers (SIC 823)**—Establishments primarily engaged in lending books (free or fixed charge) and disseminating information to the general public, such as circulating libraries and centers for documentation.

**Correspondence schools (SIC 8241)**—Establishments primarily engaged in furnishing educational courses by mail. Offices maintained by such schools for the sale of correspondence courses are classified as auxiliary establishments and are not included here.

**Data processing schools (SIC 8243)**—Establishments primarily engaged in offering data processing courses in programming and in computer and peripheral equipment operation, including keypunch operation.

**Business and secretarial schools (SIC 8244)**—Establishments primarily engaged in offering courses in business machines operation (except data processing), office procedures, and secretarial and stenographic skills.

**Vocational schools, except vocational high schools, not elsewhere classified (SIC 8249)**—Establishments primarily engaged in offering specialized trade or commercial courses, not elsewhere classified, but not academic training, including apprentice training, aviation schools, commercial art schools, and practical nursing schools. Beauty schools are included with "Beauty shops" (SIC 723); barber schools are included with "Barber shops" (SIC 724); and flying instruction is included in "Schools and educational services, n.e.c." (SIC 829).

**Schools and educational services, not elsewhere classified (SIC 829)**—Specialized nondegree granting schools, not elsewhere classified, such as music schools, drama schools, flying instruction, language schools, and Civil Service and other short-term examination preparation schools. Vocational counseling is also included here. Educational testing is included in "Management, consulting, and public relations services" (SIC 7392).

## Social Services (SIC Major Group 83)

This major group includes establishments providing social services and rehabilitation services to those persons with social or personal problems requiring special services and to the handicapped and the disadvantaged. Also included are organizations soliciting funds to be used directly for these and related services, as well as community development and planning agencies.

**Individual and family social services (SIC 832)**—Establishments primarily engaged in providing one or more of a variety of individual and family social, counseling, welfare, or referral services, including refugee, disaster, and temporary relief services. This industry also includes offices of specialists providing counseling and referral services and settlement houses, neighborhood centers, and senior citizens centers. Establishments primarily engaged in vocational counseling are included in "Schools and educational services, n.e.c." (SIC 829). Vocational rehabilitation is included in "Job training and vocational rehabilitation services" (SIC 833). Organizations engaged in community improvement, neighborhood development, or social change are classified in "Social services, n.e.c." (SIC 839).

**Job training and vocational rehabilitation services (SIC 833)**—Establishments primarily engaged in providing training and vocational rehabilitation services for the unemployed, the underemployed, the handicapped, and to persons who have a job market disadvantage because of lack of education, job skill or experience, skill obsolescences, or personal characteristics or problems. Included are upgrading and job development services, skill training, world-of-work orientation, and vocational rehabilitation counseling.

Also included are establishments primarily engaged in providing work experience for rehabilitees, as well as offices of specialists providing rehabilitation and job counseling.

**Child day care services (SIC 835)**—Establishments primarily engaged in care of infants or children, or in providing prekindergarten education where medical care or delinquency correction is not a major element. These establishments may or may not have substantial education programs. Establishments providing babysitting services are included in "Miscellaneous personal services" (SIC 7299).

**Residential care (SIC 836)**—Establishments primarily engaged in the provision of residential social and personal care for children, the aged, and special categories of persons with some limits on ability for self-care, but where medical care is not a major element. Included here are group foster homes; halfway group homes; homes for the retarded, the aged, the deaf, and blind; juvenile correctional homes; and rehabilitation (residential) centers.

**Social services, not elsewhere classified (SIC 839)**—Establishments primarily engaged in providing social services, not elsewhere classified, including those establishments primarily engaged in community improvement, social change, and neighborhood development. Also included are organizations primarily engaged in soliciting contributions on their own account and administering appropriations and allocating funds among other agencies engaged in social welfare services; establishments primarily engaged in the prevention of criminal or antisocial behavior; and regional planning agencies. Establishments which raise funds on a fee basis are classified in "Business services, n.e.c." (SIC 7399). Civic, social, fraternal and political organizations are included in major group 86, "Membership Organizations."

Philanthropic trusts and foundations are out of scope and classified in major group 67, "Holding and other investment offices," unless they are actually engaged in providing services.

## Museums, Art Galleries, and Botanical and Zoological Gardens (SIC Major Group 84)

This major group includes museums, art galleries, and botanical and zoological gardens, which are not operated commercially. Receipts or funding of these establishments are not primarily from admission charges. These establishments are of historical, educational, or cultural interest. In this census all establishments in this major group are tabulated as tax-exempt.

**Museums and art galleries (SIC 841)**—Establishments primarily engaged in noncommercial operation of museums and art galleries. Historical, cultural, and educational societies whose functions are primarily providing attractions for the public (funded primarily through contributions and grants) are included here. Establishments primarily operating museums and art galleries commercially (receipts primarily from admissions) are included in "Amusement and recreation services, n.e.c." (SIC 7999). Art galleries or art dealers primarily selling to the general public are classified in retail trade.

**Arboreta and botanical and zoological gardens (SIC 842)**—Establishments primarily engaged in the noncommercial operation of arboreta and botanical and zoological gardens. Establishments primarily operating commercial exhibits (receipts primarily from admissions) are included in "Amusement and recreation services, n.e.c." (SIC 7999).

## Membership Organizations, Except Religious (SIC Major Group 86, except 866)

This major group includes organizations operating on a membership basis for the promotion of the interests of the members. Also included are organizations which are not operated on a membership basis but for the promotion of the interests of a constituency or group of supporters. This major group does not include business establishments operated by membership organizations which are elsewhere classified, such as hospitals, hotels open to the general public, golf and country clubs, fraternity and sorority houses, and credit unions. All establishments in this major group are tabulated together as tax-exempt although some kinds of organizations such as homeowners associations, auto clubs, and political organizations may not be tax-exempt. Establishments of religious organizations operated for worship or for promotion of religious activities, such as churches, convents, religion schools and missions, are classified in "Religious organizations" (SIC 866) and are out of scope.

**Business associations (SIC 861)**—Membership organizations engaged in promoting business interests, such as better business bureaus, boards of trade, chambers of commerce, industrial standards committees, merchants associations, real estate boards, and trade associations. Farmers' cooperative marketing associations are classified in wholesale trade. Security and commodity exchanges are classified in SIC 623 and are out of scope. Civic and social businesspersons' clubs are included in "Civic, social, and fraternal organizations" (SIC 864).

**Professional membership organizations (SIC 862)**—Membership organizations of professional persons for the advancement of the interests of their profession, such as bar associations, engineering associations, and scientific membership organizations.

**Labor unions and similar labor organizations (SIC 863)**—Membership organizations of workers for the improvement of wages and working conditions, such as employees' associations and trade unions. Local, regional, and national levels of organization are included.

**Civic, social, and fraternal associations (SIC 864)**—Membership organizations engaged in civic, social, or fraternal activities, such as alumni associations, citizens associations, fraternities, scout organizations, singing societies, university clubs, veterans' organizations, youth associations, consumer education and public advocacy groups (except organizations primarily engaged in research). Bars and restaurants owned and operated by organizations, for members and guests only, are also classified here. Hotels and lodging houses operated by organizations for members and their guests, including fraternity and sorority houses, are classified in "Organization hotels and lodging houses, on membership basis" (SIC 704). Membership sports and recreation clubs are classified in SIC 7997.

**Political organizations (SIC 865)**—Membership organizations established to promote the interests of a national, State, or local political party or candidate.

**Membership organizations, not elsewhere classified (SIC 869)**—Membership organizations, not elsewhere classified, such as athletic regulatory associations, automobile owners' associations, farm bureaus, historical clubs, and humane societies.

## Miscellaneous Services (SIC Major Group 89, except 891)

This major group includes establishments engaged in performing services, not elsewhere classified, such as those rendered by accountants, artists, lecturers, and writers, and establishments primarily engaged in noncommercial educational, scientific, and other research activities. Engineering, architectural, and surveying services are classified in SIC 891 and are covered in Parts 1, 2, and 3 of this volume.

**Noncommercial educational, scientific, and research organizations (SIC 892)**—Establishments primarily engaged in noncommercial research into and dissemination of information for public health, education, or general welfare, such as archeological expeditions, educational research, medical

research, and research institutes. Establishments included here operate primarily on funds from endowments, contributions, and grants. Establishments primarily engaged in physical research on a contract or fee (commercial) basis are included in "Research and development laboratories" (SIC 7391), and those primarily engaged in nonphysical research on a commercial basis are included in "Management, consulting, and public relations services" (SIC 7392).

**Accounting, auditing, and bookkeeping services (SIC 893)**—Establishments primarily engaged in furnishing accounting, auditing, or bookkeeping services. Such establishments may, as part of providing such service, use data processing and tabulation techniques, although those techniques do not qualify as primary activities. Establishments primarily providing income tax preparation services for individuals without accounting, auditing, and bookkeeping services are classified in "Miscellaneous personal services" (SIC 7299).

**Services, not elsewhere classified (SIC 899)**—Establishments primarily providing services, not elsewhere classified, such as artists (excluding commercial and medical artists), authors, scientific consultants (working on their own account), inventors, lecturers, music arrangers, newspaper columnists, radio commentators, song writers, weather forecasters, and writers. Establishments primarily providing commercial art services are classified in "Commercial photography, art, and graphics" (SIC 7333); scientists connected with established laboratories are included in "Noncommercial educational, scientific and research organizations" (SIC 892), and in Miscellaneous Business Services (group 739); writers of advertising copy who also place advertising with the media are classified in "Advertising agencies" (SIC 7311); business and management consultants are classified in "Management, consulting and public relations services" (SIC 7392), engineering consultants in "Engineering, architectural, and surveying services" (SIC 891); computer consulting in "Computer related services, n.e.c." (SIC 7379); and advertising consulting in "Advertising agencies" (SIC 7311).

There is evidence that among nonemployer establishments (for which we obtain information from administrative records), many service establishments are coded to "Services, n.e.c." (SIC 899) when there is insufficient information for more specific kind-of-business classification. Therefore, the number and receipts of nonemployer establishments in this category may not truly reflect the volume of activity among the services properly classified here.

**All other industries (SIC 4722, other 7, 89 except 892)**—This category is shown on tax-exempt tables only. It includes all tax-exempt establishments in service industries not separately presented elsewhere, whether they are newly covered in 1977 or were covered in previous censuses (such as hotels, laundry services, business services, and amusement and recreation services). These establishments are combined here because there is too little tax-exempt activity in their respective industries to permit separate tabulation.
